

ENERGY SOLES

The **ENERGY SOLES** activate the foot reflex zones, the meridians as well as one's own energy field. The cerebral hemispheres are balanced, an invigorating clarity arises. The connection to the original source as well as to Mother Earth, and thus also to one's own center, is strengthened.

Within the emerging energy field, all geopathic interference fields are harmonized. For this reason, the ENERGY SOLES are excellently suited for people who want to be protected from geopathic interference even when they are on the move.

The ENERGY SOLES can be a valuable support especially for sportsmen and women who perform their sporting activities with a lot of concentration at constantly changing locations (golfers, archers, biathletes, etc.).
