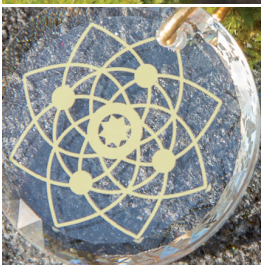
PEACE PENDANT

The PEACE PENDANT leads you into harmony and peace. It helps you to establish a deeper connection with yourself. It also conveys the realization that peace begins within yourself and can only be passed on to your surroundings and the world in this way.

It helps you to stay calm in stressful moments and to develop a positive aura that spreads to other people and your environment.

The symbol of this pendant corresponds to a crop circle symbolism that was created in southern England in 2013. This symbolism contains parts of the Venus flower, which stands for love, new beginnings, harmony and femininity. In addition, the crop circle symbol consists of eight petals - the number eight stands for balance and infinity, among other things.



TECHNICAL DETAILS
